She regularly defends road traffic claims on the grounds of fundamental dishonesty and is repeatedly instructed by Defendants in cases involving credit hire.

She prepares written advices on quantum and liability, covering areas including employers liability, public liability and road traffic accidents.

She is experienced in advising, and representing throughout the inquest process, parties at the pre-issue stage in personal injury cases.

She is increasingly instructed to advise pre-issue in personal injury cases where criminal proceedings are ongoing. Alongside Matthew Snarr she presented in September 2022 a webinar Criminal convictions in personal injury cases: rules and ramifications. (passcode: S8qSL2?N)

Fiona is always available to advise in conference including testing witnesses in cases concerning witness credibility and suspected fraud cases.
